

Air Resources Board AQMIS Database

To find information on Air Quality in Humboldt, Del Norte, and Trinity Counties, please access the AQMIS database found on the Air Resources Board website.

The NCUAQMD sends all air monitoring data collected in Humboldt, Trinity, and Del Norte counties to the ARB for inclusion in this database. This provides access to the public and allows for individuals to create air monitoring reports tailored to their individual needs.

To access this database:

- 1) Go to the website <https://ww2.arb.ca.gov>
- 2) Choose the box "Measuring Air Quality", towards the bottom, under "What We Do"
- 3) Choose Air Quality & Meteorological Data
- 4) Here you will have many options for data searches and analysis. Remember, currently the NCUAQMD monitors for:

Humboldt County: PM10, PM2.5, ozone, carbon monoxide, sulfur dioxide, nitrogen dioxide

Trinity County: PM2.5, or historically PM10

Del Norte County: PM2.5, or historically PM10

Note: If you are interested in the entire air basin, ours is the North Coast Air Basin.
