

# CARL MOYER AIR STANDARDS ATTAINMENT PROGRAM

## MARINE VESSEL PROJECT

### APPLICATION

***Please print clearly or type all information on this application and on all Attachments. (See Application Checklist on pg 3) Fill out one application for each engine or piece of equipment. All information necessary for completing this application is available in 2011 Carl Moyer Program Guidelines. This document can be viewed at: <http://www.arb.ca.gov/msprog/moyer/moyer.htm>.***

***Please note that additional information may be requested from the applicant in order to process this application.***

#### **Purpose**

This application is for incentive funds to offset the incremental cost of repowering (engine replacement), or retrofitting marine vessel engines. All projects must achieve emission reductions beyond all regulatory requirements, and meets the minimum Carl Moyer Program eligibility criteria described in the 2011 Carl Moyer Program.

#### **Eligibility Criteria**

To be eligible for funding, projects must meet the criteria described in the 2011 Carl Moyer Program Guidelines and all current Carl Moyer Program Advisories. These criteria include but are not limited to the following:

- Emission reductions obtained through Carl Moyer Program projects must not be required by any federal, state or local regulation, memorandum of agreement/understanding, settlement agreement, mitigation requirement, or other legal mandate.
- Projects must have a minimum cost-effectiveness of \$18,030 per weighed ton of NO<sub>x</sub>, ROG, and PM<sub>10</sub> reduced calculated in accordance with the cost effectiveness methodology in Appendix C of the 2011 Guidelines. The Project selection process is competitive with the most cost effective projects to be given preference.
- The newer engine's emissions must be surplus to the currently required United States Environmental Protection Agency (U.S. EPA) marine engine emission standard (i.e., Tier 2 or cleaner).
  - The new engine must be replacing an existing diesel engine **and**
  - Have a horsepower (hp) equal to or greater than 25 hp.
- Maximum Project Life:
  - The maximum project life for a marine vessel repower project is 16 years. A longer project may receive case-by-case approval if applicants provide justifying documentation. The maximum project life does not consider regulatory requirements and may be shorter.
- No emission reductions generated by the Carl Moyer Program shall be used as marketable emission reduction credits, or to offset any emission reduction obligation of any person or entity.
- No project funded by the Carl Moyer Program shall be used for credit under any federal or state emission averaging banking and trading program.

- Emission reduction technologies must be certified/verified by the ARB for sale in California and must comply with durability and warranty requirements. For the purposes of the Carl Moyer Program, a technology granted a conditional certification/verification by ARB is considered certified/verified.

### Summary of Funding Opportunities

Project Type	Subject to ARB Rule	Moyer Funding Opportunities <sup>1</sup>
Vessels subject to Commercial Harbor Craft Regulation (CHC) Schedules for Meeting Tier 2 or Tier 3 Standards (ex: barge, crew & supply, dredge, excursion, ferry, towboat, tugboat) - engine repower, remanufacture, retrofit or new purchase	Commercial Harbor Craft Regulation <sup>2</sup>	Limited opportunity
Vessels <b>not</b> subject to Commercial Harbor Craft Regulation Schedules for Meeting Tier 2 or Tier 3 Standards (ex: fishing vessel or pilot/work boat) - engine repower, remanufacture, retrofit or new purchase	No	Not limited by regulation
Shore power - shore-side	Shore Power Regulation <sup>3</sup>	Very limited opportunity
Shore power - vessel retrofit	Shore Power Regulation <sup>3</sup>	Limited opportunity

<sup>1</sup> Limited opportunities means a fleet's compliance status with the ARB regulation must be determined. Contact air district Moyer Program staff or consult CHC regulation Carl Moyer Implementation Charts at: <http://www.arb.ca.gov/msprog/moyer/guidelines/supplemental-docs.htm> in addition to these guidelines.

<sup>2</sup> Harbor Craft Regulation: <http://www.arb.ca.gov/ports/marinevess/harborcraft.htm>

<sup>3</sup> Shore Power Regulation: <http://www.arb.ca.gov/ports/shorepower/shorepower.htm>

**Additional criteria may be found in the 2011 Carl Moyer Program Guidelines: Chapter 2, Chapter 3, and Chapter 12.**
